

A Chara,

Kindly note the below and attached requirements regarding Club Development Works. Please note: These must be submitted and agreed prior to any works commencing.

The Liability policy of the GAA does not extend to cover liability arising out of Building Development Works .

This is an excluded activity. It is a requirement of The Association that contracts/works of this nature are carried out by Bone Fide Contractors who have the appropriate insurance cover in place with indemnities to your club & The Association.

We would need the insurance broker for the contractor to complete the attached Insurance Questionnaires so that we can confirm that they have adequate insurance cover in place and return to us prior to commencement of works.

The requirements of The Association in relation to contractors undertaking construction work are as follows:

- Contractor to provide evidence of Public Liability insurance with a minimum limit of € 6.5 Million
- Contractor to evidence of Employers Liability Insurance (if applicable) with a minimum limit of € 13 Million
- Contractor to Provide evidence of Contractors All Risk Cover in place
- The limit of insurance on the Contractors All Risks policy must be equal or greater to that of the contract/ project.
- GAA club must be noted as Joint Insured in Contractors All Risk policy and are specifically indemnified (along with The Association) under the Contractors Liability Policy.
- You must also notify your County Board.
- A copy of the contract to be provided to the GAA Risk & Insurance Manager/Willis Towers Watson in advance of any works taking place
